Type of In	stallation: (check one)	
	☐ Residential Drive ☐ Farm Field Entrance ☐ Commercial/Industrial Drive	Public Institution Other (describe)
Proposed	Driveway Width:	

Installation Procedure:

- 1. Owner makes an application for a drive pipe installation.
- 2. Field inspection, design, and estimated costs are determined by the County Engineer's Office.
- 3. County Engineer's Office will contact Owner with total job cost. Full payment is required before installation can begin.

Installation Regulations:

- 1. Owner agrees to mark the location of the proposed drive pipe using orange stakes supplied by Huron County.
- 2. The diameter of pipe, type of pipe and length of pipe which must be used and the grade and direction of flow for the installation will be determined by the Inspector/Highway Superintendent of the County Engineer's Office.
- 3. Applicant will be responsible for the purchase and payment of the appropriate pipe as required by the County Engineer's Office unless other arrangements are made with the Inspector/Highway Superintendent.
- 4. Applicant acknowledges that all requests will be processed as weather conditions, time, man power and availability of cover material will allow.
- 5. Applicant acknowledges that the approval of this application grants them no future right to perform any construction within the right of way.
